

Making Day One Count

A New Hire Onboarding Webinar

Tuesday, June 11, 2019

10:00am-11:15am

Onboarding is more than just the first two hours of filling out forms and orientation on an employee's first day. Onboarding is the employee's first window into the culture and is the company's first, and potentially last, opportunity to convey what the organization values and prioritizes. Through case studies and interactive discussions, this webinar will help guide you through the entire onboarding process and will cover:

- Best practices for onboarding and retaining employees that set an employee up for success.
- The legally required new hire documents.
- Onboarding as an investment tied to employee engagement and retention.
- Unique issues surrounding onboarding for remote employees.
